About me

As an entry-level software engineer, I am interested in web-design and web-development. Also, learning new tools and computer languages which can visualize my idea into the real world really thrills me. I am a fast learner, and always open to expanding my skills to thrive in this fast-paced environment.

Education

Korea University, Seoul, South Korea   *GPA: 3.52, Mar 2014 – Aug 2020*
